

Md. Mosfikur Rahman

 GitHub |  LinkedIn |  Portfolio |  Scholar |  mdmosfikurrahman.cse@gmail.com

Career Objective

A dedicated and growth-oriented Software Engineer with proven experience in backend development, system architecture, and enterprise software integration. I specialize in building scalable microservices, designing secure and testable APIs, and optimizing performance across databases and distributed systems. Throughout my journey, I have contributed to national-scale platforms, supported architecture planning for aviation systems, and developed dynamic CMS features for global clients. My collaborative approach, combined with a strong foundation in software engineering principles and academic research, enables me to deliver practical and impactful solutions. I am passionate about continuous learning, mentoring others, and contributing to software that bridges innovation with real-world needs.

Education

2021	Bachelor of Science (B.Sc.) in Computer Science and Engineering Daffodil International University, Bangladesh	(CGPA: 3.83/4.00)
2021	Erasmus Mundus Exchange Program Adam Mickiewicz University, Poland	(Completed 6 ECTS)
2016	Higher Secondary School Certificate Major General Mahmudul Hasan Adarsha College, Tangail	(GPA: 4.67/5.00)
2014	Secondary School Certificate Police Lines Adarsha High School, Tangail	(GPA: 5.00/5.00)

Research Interest

- Data Science
- Machine Learning
- Artificial Intelligence
- Internet of Things
- Software Development

Journals

Rahman, Md. Mosfikur, Mohd. Saifuzzaman, Akash Ahmed, Mahfuja Ferdousi Mahin Mahin, and Syeda Farjana Shetu (2021). “Impact of COVID-19 on mental health: A quantitative analysis of anxiety and depression based on regular life and internet use”. In: *Current Research in Behavioral Sciences* 2, p. 100037. ISSN: 2666-5182. DOI: [10.1016/j.crbeha.2021.100037](https://doi.org/10.1016/j.crbeha.2021.100037).

Saifuzzaman, Mohd, **Rahman, Md. Mosfikur**, Syeda Farjana Shetu, and Nazmun Nessa Moon (2021). “COVID-19 and Bangladesh: Situation report, comparative analysis, and case study”. In: *Current Research in Behavioral Sciences* 2, p. 100034. ISSN: 2666-5182. DOI: [10.1016/j.crbeha.2021.100034](https://doi.org/10.1016/j.crbeha.2021.100034).

Research Collaborations

- **Reviewer**, Current Research in Behavioral Science.
- **Reviewer**, ISA Transactions.
- **Reviewer**, Natural Language Processing Journal.
- **Reviewer**, Journal of King Saud University - Computer and Information Sciences.
- **Reviewer**, 2022 4th International Conference on Deep Learning, Artificial Intelligence and Robotics.
- **Reviewer**, 2022 International Conference on Information Systems and Management Science.
- **Reviewer**, 2022 International Conference on Communication and Information Systems.

Work Experience (3.5+ years)

Software Engineer L-II

Akij iBOS Ltd.

November 2024 – Present.

Responsibilities:

- Supporting the initial system architecture and microservice planning for the Akij Air platform.
- Collaborating with cross-functional teams to define service modules and API integration strategies.
- Contributed to the TrackForce project by delivering RESTful APIs and SQL-based reporting features.
- Introduced CI/CD workflows to improve deployment consistency and reduce manual steps.
- Enhanced internal tooling and workflows for financial reporting and data handling.

Software Engineer

REVE Systems Ltd.

July 2023 – October 2024.

Responsibilities:

- Developed enterprise-grade Java applications with a focus on modularity and performance.
- Refactored monolithic systems into microservice-based components to improve scalability.
- Optimized Oracle database usage, achieving significant gains in speed and storage efficiency.
- Delivered production-grade modules for national infrastructure projects including NBR.

Software Engineer

BJIT Group

April 2022 – June 2023.

Responsibilities:

- Developed GraphQL-based Backend for Frontend (BFF) services using Java and Spring Boot.
- Implemented schema stitching, resolvers, and batching for efficient nested queries.
- Optimized Oracle DB interactions to improve query performance and API responsiveness.
- Designed reusable service patterns and contributed to internal tooling for GraphQL schema generation.

Leadership & Team Management Experience

Software Engineer L-II

Akij iBOS Ltd.

November 2024 – Present.

Responsibilities:

- Coordinating cross-functional team efforts during the early planning phase of the Akij Air system.
- Participating in shaping workflows and delivery processes aligned with agile methodology.
- Providing peer-level technical guidance on service modularization and backend design principles.
- Supporting the development of rule-based prototypes to explore business logic automation strategies.
- Assisted in improving CI/CD processes to enhance development and testing readiness.

Vice President, Research & Career Wing

C.P.C, Daffodil International University

2021.

Responsibilities:

- Led student initiatives on research, career planning, and skill development.
- Organized tech talks and mentoring sessions with academia and industry.
- Guided peers on publishing, presentation, and academic writing.

Projects

Akij Air Backend System

Akij iBOS Ltd.

Role: Backend Engineer (Planning Stage).

Responsibilities:

- Collaborating on architectural planning and system design for a new airline management backend.
- Contributing to the definition of core modules such as partner onboarding, flight inventory, and routing.
- Assisting in selecting technology stacks, drafting service boundaries, and defining integration strategy with external GDS systems.
- Spearheading documentation of architectural decisions and service interaction workflows.

TrackForce

Akij iBOS Ltd.

Role: Lead Developer.

Responsibilities:

- Led backend, frontend, and QA teams to improve system performance and delivery workflow.
- Developed REST APIs and reporting modules using .NET Core and SQL Stored Procedures.
- Implemented real-time tracking and automated reporting features to support operations.

Customs Bond Management System (NBR)

REVE Systems Ltd.

Role: Full-stack Developer.

Responsibilities:

- Developed modules including Legal and Case Information System and Utilization Declaration System.
- Integrated BGMEA and BKMEA databases to automate declaration processes.
- Built scalable and maintainable features using Spring Boot, Thymeleaf, and Oracle DB.
- Enhanced regulatory compliance by implementing audit trail and role-based access control.

Rakuten Echiba Backend Development

BJIT Ltd.

Role: Backend Developer.

Responsibilities:

- Developed backend modules using Spring Boot tailored to Rakuten's e-commerce ecosystem.
- Assisted teammates by resolving technical blockers and providing backend support.
- Coordinated with Japanese stakeholders to align implementation with business requirements.

Denka Corporate Website

BJIT Ltd.

Role: Full Stack Developer.

Responsibilities:

- Developed dynamic Marquee components and CMS features using Java and Thymeleaf.
- Implemented backend logic for content scheduling and multilingual support.
- Collaborated with UI/UX designers to ensure responsive and accessible frontend design.
- Enabled SEO optimization and analytics tracking integration to improve content visibility.

Skills

Research Skills

Literature Review, Academic Writing, Statistical Analysis, Experimental Design

Data Science & ML Core Backend Skills

Machine Learning, Model Evaluation, Feature Engineering, Data Processing
Backend Architecture, OOP, Microservices, API Design, Process Automation,
Security

Languages

Java (8–21), C#, JavaScript, Python

Frameworks & Tools

Spring Boot, ASP.NET Core, Spring Security, JPA/JDBC, Docker

Databases

Oracle, PostgreSQL, SQL Server, MySQL

Practices & DevOps

REST, GraphQL, CI/CD, Git, Agile

Certifications & Training

- **IBM Data Science Professional Certificate (Coursera)**, Professional Certificate in Data Science.
- **Data Science for Everyone (DataCamp)**, Basic to Advanced Data Science Tutorial Certification.
- **Machine Learning for Everyone (DataCamp)**, Machine Learning Certification From Basic to Advanced.

Extracurricular Activities

- **Conference Speaker**, 10th IEEE International Women in Engineering (WIE) Conference on Electrical and Computer Engineering 2024 (IEEE WIECON-ECE 2024).
- **Guest Speaker**, entitled “How to get started: Undergraduate Research Journey”, organized by Computer & Programming Club, Daffodil International University.
- **Vice President**, Research & Career Wing (2021), Computer & Programming Club, Daffodil International University.
- **Technical Lead**, “Take Off - 2020”, organized by Computer & Programming Club, Daffodil International University.
- **Organizing Member**, Programming Contest, “Take Off - 2019”, organized by Computer & Programming Club, Daffodil International University.
